Start of Block: welcome

Dear \${m://FirstName} \${m://LastName}

Welcome to the final MOBIS survey!

In this final survey we will collect some more information about you and various aspects of transport. This will allow us to perform in-depth analyses of the valuable data you provided throughout the study.

Please click on the arrow below to start.

Start of Block: transport_opinions

The following questions are about your opinions regarding transport in Switzerland.*

Some questions may be similar to those from the Introductory MOBIS Survey. However, this is by design.

How satisfied are you with the Swiss transport system?

	Very dissatisfied	Somewhat dissatisfied	Neither satisfied nor dissatisfied	Somewhat satisfied	Very satisfied
Road infrastructure	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Public transport	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Below is a list of potential **problems** commonly associated with **transport**.

Please indicate for each problem whether it should receive **more or less attention** from policy makers, compared to how much attention it currently receives.

	Much less attention	Less attention	Neither more nor less attention	More attention	Much more attention	I don't know
Road congestion	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Greenhouse gas emissions from motorized traffic	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Health effects of air pollution from motorized traffic	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Extent of mobility overall (people travel too much)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Below is a list of **factors** defined by transport policy. Please indicate for each factor whether you find its current level to be **too low or too high**.

	Much too low	Too low	Neither too low nor too high	Too high	Much too high	I don't know
Price of mobility in general	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Price of public transport tickets	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Below is a list of specific transport **policies**.

Please indicate whether you **agree or disagree** with each policy.

	Strongly disagree	Disagree	Neither disagree nor agree	Agree	Strongly agree	I don't know
Time- and route-specific mobility pricing, made revenue-neutral by lowering other taxes.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Dynamic adjustment of speed limits on highways to optimize traffic flow.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Widen major highways with extra lanes.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Increase the cost of public parking in city centers.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please indicate your level of agreement or disagreement with the following statements.

	Strongly disagree	Disagree	Neither disagree nor agree	Agree	Strongly agree	I don't know
The government should build sufficient road capacity to satisfy demand at all times.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The government should build sufficient public transport capacity to satisfy demand at all times.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The price for mobility should reflect the social cost (e.g., health, environment, congestion).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The transport network should be used more efficiently by introducing dynamic pricing (e.g., higher prices during rush hour).	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
All people should pay the same for mobility, regardless of when and where they travel.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Start of Block: Exam and awareness questions

Do you agree with the following statements? The information provided in the MOBIS e-mails ...

	Strongly disagree	Disagree	Neither disagree nor agree	Agree	Strongly agree
... was clear	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
... was interesting	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

... was difficult to understand	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

How would you define the external costs of your travel behavior?

- The costs associated with my travel behavior that I have to pay myself.
- The costs imposed on society as a consequence of my travel behavior.
- The total costs associated with my travel behavior (sum of private plus societal costs)
- I don't know what the external costs of travel are

In the context of our study, we define the **external costs of travel** as the **costs imposed on others**. In our everyday lives, we do not have to pay for these costs. The most important external costs of travel include adverse health effects due to air pollution, noise and accidents; climate damages due to the emission of greenhouse gases; and delays for others due to an increase in congestion.

The **costs that we bear ourselves** are called the **private costs of transport** and include things like purchasing a vehicle, fuel or a public transport ticket, but also our own time loss in congestion and the private health benefits when choosing an active mode of transport (bicycling or walking).

Display This Question:

If group = pricing

Were you aware that you could earn money by changing your travel behaviour during the second phase of the study?

- Yes
- No

Display This Question:

If group = nudging

Were you aware that you could reduce the external costs of your travel by changing your travel behaviour during the second phase of the study?

- Yes
- No

Display This Question:

If group = nudging

Or group = pricing

Due to technical reasons, it was not possible to mark a trip as "car-pooled" with someone, even though this is an effective way of reducing external costs. Did you share rides with others in order to reduce your external costs?

Start of Block: use_of_revenue

The following questions are about the use of potential revenue from mobility pricing.

If dynamic mobility pricing (i.e., prices depending on mode, route and time) were introduced, what should be done with the revenue?

- The money should be returned to households
- The money should be used to fund new transport-related projects
- About half of the money should be returned and the rest spent on transport-related projects
- Other (please specify) _____

If the money were returned to households, which option would you prefer?

- Returning the same amount to everyone (e.g., by lowering health insurance premia)
- Lowering existing taxes and fees related to motorized transport (e.g., vehicle tax)
- Lowering existing taxes that are unrelated to transport (e.g., value added tax)
- Lowering public transport fares
- Other (please specify) _____

If the money were used to fund transport projects, how should it be prioritized?

- Projects related to motorized transport
 - Projects related to public transport
 - Projects related to bicycling
 - Projects related to walking
 - No particular mode should be prioritized
